BYGGLOVSHANDLING

The figure consists of a map of the study area and a distribution chart. The map shows the coastline of the study area with a shaded region labeled 'CL' (study site). A diagonal line across the shaded region is labeled 'A', 'B', and 'C' at its ends. A north arrow is located to the right of the map. A scale bar is located at the bottom right of the map.

The distribution chart is a bar graph showing the number of individuals for each species (A, B, C) across different size classes (1 to 21). The y-axis is labeled 'Number of individuals' and ranges from 0 to 21. The x-axis is labeled 'Size class' and ranges from 1 to 21. The bars are shaded gray.
