

The architectural drawing consists of two parts. The top part is a facade elevation of a building. It features a central section with a gabled roof and a series of horizontal bands, including a shaded band. To the right, there is a lower, rectangular section. The bottom part is a site plan showing a rectangular plot. A road labeled 'JUNGFRUGATAN' runs along the left side. A shaded rectangular area within the plot represents the building's footprint. A north arrow is located in the upper right corner of the site plan.
